

Press release

## **New version of the free PDF editor FreePDF released**

**November 29, 2022 – Germany-based software manufacturer SoftMaker is releasing the latest version of its free PDF editor FreePDF today. In addition to improved features, the new FreePDF 2022 is available for the first time with a modern ribbon interface, which users already know from Office applications.**

### **In summary:**

- The PDF editor FreePDF 2022 is now available free of charge for Windows
- Completely revised new ribbon user interface in the style of a modern Office application
- Optional "dark mode" that is easy on the eyes
- Arrange, insert, reorder and delete pages
- Insert, edit and delete pictures and drawings in PDF files
- Automatically reduce the size of PDF files by resampling large pictures
- Secure AES encryption of PDF files
- Search text with the integrated Search function

**FreePDF 2022 for Windows** is now available to download free of charge at [www.getfreepdf.com](http://www.getfreepdf.com). FreePDF enables users to view, annotate and edit PDF files quickly and conveniently.

Work is now even easier thanks to the new ribbon user interface in the style of a modern Office application. The optional new "dark mode" allows the program to be displayed in dark colors that are easy on the eyes.

FreePDF 2022, the free version of the commercial PDF editor FlexiPDF 2022, enables users to change PDF files as desired. It allows pages to be deleted, rearranged or inserted from other PDFs. Pictures and drawings can be inserted into PDF documents; text and picture elements can also be rearranged or removed.

If users want to reduce the size of PDF files, they can avail of the new feature for saving in a reduced size, which either converts included images into JPEG format or resamples them to a lower DPI value.

Last but not least, FreePDF 2022 is a powerful tool for viewing and annotating PDF documents and provides the option of creating PDF files from any Windows program with the integrated PDF printer.

FreePDF is available as a free download at [www.getfreepdf.com](http://www.getfreepdf.com) and can be used on Windows 11, 10, 8 and 7.

### **About SoftMaker**

Since its foundation in 1987, SoftMaker has been developing Office software: word processing software (TextMaker), spreadsheet software (PlanMaker), presentation graphics (SoftMaker Presentations) and database software (DataMaker). The "flagship" product SoftMaker Office is available for Windows, Mac, Linux, Android and iOS. The outstanding features of SoftMaker software are ease of use, enormous compatibility with Microsoft Office and speed – these features coupled with fair prices constitute an unbeatable combination. SoftMaker's second productivity application is FlexiPDF, a PDF editor that makes editing PDF files as easy as working with a word processor. FlexiPDF offers the full functionality of a high-end PDF editing solution but without the high price. High-quality computer fonts constitute SoftMaker's third mainstay. The two product lines MegaFont and infiniType enable general end users as well as

professional designers, printers and publishers to obtain font libraries of the highest quality.
